SMALL LOSS

SUFFERED BY OHIO BECAUSE OF TWO-CENT RULE

Transportation Companies Shown by Late Reports to Have About Same Earnings as Before.

Columbus, Aug. 5.—Reports of the fiscal year just closed will show, it is said, that the 2-cent rate in Ohio has not cut down the earnings of the railroads. Although a different showing was anticipated, the conditions are said to be highly gratifying to railroad officials. It is reported that an Eastern system with passenger earnings of \$1,500,000 a year, less than \$500 during its fiscal year just closed. This is considered favorable and significant, because while travel was somewhat heavier than usual, Ohio furnished a large percentage of the total amount earned.

While during the preceding year the system was on a basis of 3 cents a mile, 2 cents was largely the prevailing rate paid, as much of the traffic was carried on interchangeable mileage tickets, which have increased such business, but reduced local ticket sales. An official of the system says: "If our experience is a criterion, the net result of 2-cent fares (and they will be universal soon) will be this: The strong roads will break even, or better; the weak roads will lose some revenue, and the public will be on the road more of the time and in pocket all the time."

"Our line opposed the adoption of 2 cents a mile maximum in basting interstate rates, because we wanted to see the outcome of Pennsylvania's fight against the new law in its home state and of the present test of the 2-cent basis in Illinois."

"A 2-cent fare does not scare us any more. Most of our business is on that basis now. If you could average all the fares in Eastern territory applying to interstate travel, you would find that the railroads get much less than 2½ cents a mile."

"It has not been decided to what extent 2 cents a mile will be the minimum rate when it is generally in effect as the maximum rate. There is the opening for adjustment as between the strong and weak lines."

COLD DEAL

That Made Akron Man Warm Friend of Steubenville Kids.

Steubenville, O., Aug. 5.—It is a rather unusual thing for an ice cream stand to have a call for \$20 worth of ice cream from one man, but the stand at the Pleasant Heights track had such a call yesterday. The purchaser of the unusual quantity of frozen sweets is an old man whose home is in Akron, and who follows the races and is well known to all the horsemen as "Dad." Those who devoured the cream were about 160 small boys.

It seems that "Dad" made a "killing" on one of the races and seeing a crowd of boys loitering about the ice cream stand with their mouths watering for some of the cream he went up and threw down a \$20 bill telling the clerk to pass out cream to the boys as long as the money lasted. For about twenty minutes there was a bunch of happy kids and there were few on the grounds who did not get in on the deal. One little dirty faced youngster came on the scene just as the man at the stand said the bill had been spent. That did not make any difference to "Dad," for he took the hungry little fellow over and bought was the most popular man at the track him all the cream he could eat. "Dad" after he had treated the boys and all the rest of the afternoon a gang kept near him.

MANSFIELD IMPROVED

New York, Aug. 5.—Ex-Judge A. J. Dittenhoefer today received a wire from Mrs. Richard Mansfield, who is with her husband, at Amersand, N. Y., relative to the reports of his illness as follows.

"Please contradict reports. Improving. Had attack sciatica brought on by damp weather crossing."

T he Mansfields arrived in Amersand on July 29, going there shortly after the actor returned from England by way of Canada.

Teamsters in Convention.

Boston, Mass., Aug. 5.—There was a full attendance of delegates today at the opening in this city of the annual national convention of the International Brotherhood of Teamsters. The past year has been one of great activity for the organization. One of the most important matters to be brought up at the convention is the proposition to change the constitution so that hereafter conventions will be held at two-year intervals instead of each year.

International Housing Congress.

London, Aug. 5.—Delegates from many countries are attending the International Housing Congress, which began its annual session in London today. The object of the congress, as its title indicates, is the providing of better home facilities for the poor and laboring classes. An effort will be made to have the congress decide to hold its next meeting in America.
